Large Group Reunion: Reading books, art and craft, baby signs, songs, puppet show, and musical instruments.

Directed play: Intentional Teaching Activities that include objectives of the development and learning areas.

The infants in our program follow a loose routine geared for the older babies. All the children's own rhythms are respected and younger babies can nap more often and at different times than what is specified here. They are also fed whenever they are hungry or on the schedule parents provide, and bottles that are not finished are re-offered frequently.
